

# ❖❖ EXHIBIT C — PARTICIPANT OUTCOME EVIDENCE

**(Belief vs Outcome Collision — Clean Record)**

## ❖❖ PURPOSE

To document **participant-reported outcomes** following entry into platform-mediated sexual labor markets.

This exhibit establishes:

- post-entry realization of harm
- absence of prior understanding
- consistency of outcomes across participants

## ❖❖ EVIDENTIARY STANDARD

All statements:

- originate from participants
- are post-entry reflections
- describe lived outcomes or retrospective evaluation

No host or third-party commentary included.

## ❖❖ SECTION 1 — LACK OF PRIOR UNDERSTANDING

“I did not realize...”

“I did not know...”

“I wish someone would have warned me...”

“I didn’t know I would need trauma counseling.”

### SIGNIFICANCE

Participants explicitly report:

- absence of awareness
- absence of warning
- absence of outcome understanding

## ❖❖ SECTION 2 — PSYCHOLOGICAL IMPACT

“It did damage to my mental health.”

“I was going to be experiencing PTSD...”

“It brought me into darker places than I ever could have imagined.”

### SIGNIFICANCE

Participants report:

- trauma-related impact

- psychological distress
- long-term emotional consequences

## ❖❖ SECTION 3 — REPUTATIONAL & IDENTITY IMPACT

“It made my name look bad.”

“That’s not someone I wanted to be known as.”

“People have a certain perspective about you.”

“There’s more to me than just that.”

### SIGNIFICANCE

Participants report:

- identity reduction
- reputational persistence
- external reclassification

## ❖❖ SECTION 4 — IRREVERSIBILITY & LOSS OF CONTROL

“A coworker found my account and subscribed.”

“I had videos from way back... things I didn’t want someone I worked with to see.”

“Another person at work mentioned it and it freaked me out.”

“I deleted it right then and there.”

## **SIGNIFICANCE**

Participants report:

- loss of control over exposure
- persistence beyond intent
- inability to reverse visibility

## **SECTION 5 — SOCIAL & FAMILY IMPACT**

“I’ve lost my whole family.”

“I’m not allowed to visit my dad anymore.”

“He said he doesn’t want to be seen in public with me.”

“I don’t talk to my brothers or sisters.”

## **SIGNIFICANCE**

Participants report:

- family exclusion
- social rejection
- long-term relational consequences

## SECTION 6 — RELATIONAL & INTIMACY IMPACT

“It makes dating really hard.”

“It makes intimacy hard.”

### SIGNIFICANCE

Participants report:

- disruption to bonding
- difficulty forming relationships

## SECTION 7 — ECONOMIC INSTABILITY

“I made \$130,000... but \$100K was in the first three months the rest of the year I scraped another \$30K.”

“It felt like I was wasting my time.”

### SIGNIFICANCE

Participants report:

- front-loaded earnings
- unstable income patterns
- mismatch with expectations

## **SECTION 8 — GLOBAL LIFE IMPACT**

“It makes life really hard.”

“You have to be okay with being shamed every day of your life.”

### **SIGNIFICANCE**

Participants describe:

- persistent daily impact
- normalization of stigma exposure

## **SECTION 9 — NON-RECOMMENDATION**

“I tell people no.”

“I would not recommend it.”

“I would be a bad person if I recommended it.”

### **SIGNIFICANCE**

Participants:

- have full exposure to outcomes
- advise against entry

## ❖❖ SECTION 10 — POST-EXIT RECONSTRUCTION

6

“Streaming has helped me more than you could ever know.”

“I’m proud of myself for changing my life.”

### SIGNIFICANCE

Participants:

- attempt identity rebuilding
- seek separation from prior participation

## ❖❖ CORE PATTERN

Across all statements:

Participants:

- entered under one set of expectations
- encountered materially different outcomes
- recognized harm after entry
- advise against participation

### LIABILITY LINK

Where participants:

7

- report lack of prior understanding
- identify harm post-entry
- and would not recommend participation

→ this indicates:

**material outcome information was not available at the point of entry**

## **CORE FINDING**

**Participants describe foreseeable, life-altering outcomes that they report were not understood prior to participation.**
