

LOCKED STRUCTURAL ORDER (REBUILT — INTEGRITY PRESERVED)

CLASSIFICATION-STAGE / FOUNDATIONAL LAYER

PRINCIPLE #0 — NEUTRALITY MODEL COLLAPSE (FOUNDATIONAL)

Known distorted baseline

- neutrality no longer presumed sufficient
- active structural testing required

PRINCIPLE #0a — PROTECTIVE SIGNAL DISQUALIFICATION

Protective signal

- sex-negativity / overreaction / stigma penalty
- early warning weakened before protection activates

PRINCIPLE #1 — NEUTRALITY DRIFT NOT ACCEPTED

Distorted baseline

- neutrality claim
- test preserve / amplify / correct

PRINCIPLE #2 — CAPACITY PROVEN → WHY NO EQUIVALENT UPSTREAM LITERACY?

Proven worldview-building capacity

- weaker girls' upstream literacy
- justification burden

PRINCIPLE #3 — MALE FUTURE BENEFIT IS NOT SUFFICIENT

Girls absorb early burden

- male downstream preference / comfort
- not self-justifying

PRINCIPLE #4 — HISTORICALLY KNOWN HARM PATHWAY LOCKED

Known history

- foreseeable burden
- cannot reset through rhetoric

PRINCIPLE #5 — EMPOWERMENT CLAIMS REQUIRE BURDEN INTEGRITY

Empowerment claim

- burden minimization / omission
- integrity failure

PRINCIPLE #6 — PRE-HARM DEVELOPMENTAL LITERACY > POST-HARM DRIFT

Entry-stage developmental architecture

- governs
- post-harm management secondary

PRINCIPLE #7 — BUILDING BLOCK INEQUALITY

Unequal protective language / interpretive legitimacy

- unequal survivability

PRINCIPLE #8 — FIRST-STAGE CLASSIFICATION IS TRAJECTORY GOVERNANCE

First classification

- pathway strength
- burden allocation
- trajectory divergence

INSTITUTIONAL BREAK / JUSTIFICATION LAYER

PRINCIPLE #9 — EXPLANATION ≠ JUSTIFICATION

Political / liability / complexity explanation

- not sufficient defense

PRINCIPLE #10 — SELECTIVE AUTONOMY IS REVIEWABLE

Same developmental condition

- different autonomy threshold
- reviewable

PRINCIPLE #11 — PLAIN LANGUAGE PRESERVATION

Abstraction drift

- developmental reality loss
- prohibited

PRINCIPLE #12 — TRANSLATION INTEGRITY AFTER FORESEEABILITY

Known harm

- translation burden shifts to institution

PRINCIPLE #13 — COORDINATED WORLDVIEW CONSTRUCTION DISPARITY

Can build stronger worldview there

- weaker here
- justify disparity

PRINCIPLE #14 — PRE-EQUALIZATION BURDEN IS REVIEWABLE

- Child must self-translate to reach parity
- neutrality already broken

PRINCIPLE #15 — EARLIEST GOVERNING FAILURE CONTROLS

- Earliest trajectory-shaping governance point
- controls analysis

PRINCIPLE #16 — STRONGER PATHWAY AVAILABILITY PRESUMPTION

- Stronger available pathway
- weaker path chosen
 - justify downgrade

PRINCIPLE #17 — RELIABLE STATUS / LEVERAGE LOSS REQUIRES STRUCTURAL REVIEW

- Reliable recurring degraded position
- structural review mandatory

PRINCIPLE #18 — BURDEN SHIFT WITHOUT JUSTIFICATION IS REVIEWABLE

- Institution avoids burden
- child burden increases
 - reviewable

PRINCIPLE #19 — CATEGORY PRECISION CONTROLS PROTECTIVE ACCESS

- Category precision
- determines pathway strength

PRINCIPLE #20 — REVIEW TIMING IS STRUCTURAL

- Late review
- may preserve earlier disparity

PRINCIPLE #21 — CONTINUITY PRESERVATION IS NOT NEUTRALITY

- Continuity protection
- may equal disparity preservation

PRINCIPLE #22 — COMPARATOR DISPARITY CREATES JUSTIFICATION BURDEN

- Comparator stronger architecture
- weaker local architecture
 - disparity burden
-

MACHINE / DEVELOPMENTAL GOVERNANCE LAYER

PRINCIPLE #23 — DEMAND IS NOT PRESUMED NEUTRAL

Demand pressure

→ developmental and institutional relevance

PRINCIPLE #24 — DEVELOPMENTAL CONDITION IS GOVERNING, NOT BACKGROUND

Developmental state

→ governs pathway interpretation

PRINCIPLE #25 — REWARD DOMINANCE BEFORE EVALUATION

Reward before cognition

→ distorted decision environment

PRINCIPLE #26 — INTERPRETIVE DEPENDENCE IS STRUCTURAL

No language / no framework

→ external interpretation governs

PRINCIPLE #27 — STATUS SENSITIVITY IS DEVELOPMENTALLY MATERIAL

Status threat

→ materially shapes behavior

PRINCIPLE #28 — PEER REINFORCEMENT IS DEVELOPMENTAL ARCHITECTURE

Peer reinforcement

→ pathway architecture

PRINCIPLE #29 — DEVELOPMENTAL CONDITIONS CANNOT BE SELECTIVELY INVOKED

Development recognized elsewhere

→ ignored here

→ justify disparity

PRINCIPLE #30 — ABSENCE OF REWARD-LOOP LITERACY IS REVIEWABLE

Known reward systems

→ literacy absent

→ reviewable omission

PRINCIPLE #31 — PRE-INCIDENT GOVERNANCE PRIORITY / ANTI-POST-HARM DRIFT

Pre-incident architecture

→ primary governance domain

PRINCIPLE #32 — POWER PREFERENCE IS NOT SELF-JUSTIFYING

Power preference / institutional convenience / male preference

- may explain disparity
 - does not justify disparity
-

CORRECT CHAIN (LOCKED)

Known distorted baseline

- capacity to build worldview proven
 - weaker building blocks for girls
 - stronger pathway available
 - category precision controls access
 - burden shifts downstream
 - review timing matters
 - demand / reward / peer / status conditions govern
 - first classification governs trajectory
 - disparity must be justified
-

TIGHTEST MASTER LOCK

Known harm

- proven capacity
 - weaker developmental architecture
 - reward-dominant conditions
 - weaker classification pathway
 - burden shifted to child
 - neutrality broken
- = justify disparity.
